Raahee

Cisco ThingQbator Internship Program

Oct 2020 – Present

- Working on the system backend to facilitate the verification process and user management.
- Porting the already built backend in firebase to Node.js and MongoDB

Himachal Pradesh Govt. Child Death Review System

Web Development Intern

May 2019 – July 2019

- Developed portal for management of child health services in the state.
- Analyzed the current flow of information and implemented that on the web to reduce the paperwork and delays.

## PROJECTS

Donate India

- A transparent donation platform built on blockchain that allows users to donate cryptocurrency and track their money.
- Developed smart contract using solidity for users to create campaigns and donate to them anonymously. Linked the contract with Front-End using web3.js and Metamask.

iBlog

- A blogging platform that gives both the bloggers and the readers an interactive blogging experience!
- Provided an easy and intuitive way to create a blog by Drag-and-Drop method. The storage of the parts of a blog, is done in the form of a Tree Node using reference to other nodes.

Say In Editor

- An Android application to ease coding on phones by using voice commands detected by Google Voice Recognition.
- Provided shortcuts for operators and symbols which aren't easily accessible through the phone keyboard.
